

Once you have nutrition support funding in your plan you can use it to get the nutrition products or help you need.

Your local area coordinator, early childhood partner or planner will describe how you can use the funding in your plan comments. The comments will be next to the funding budget in your plan.

If you need help to use the funding, talk to your local area coordinator, early childhood partner or your support coordinator or us.

Learn more in [Our Guideline - Your Plan](#) or the general [Using Your Plan webpage](#) .
